Cómo localizar el CiteScore de una revista en Scopus

¿Qué es el **CiteScore**?

El CiteSore de una determinada publicación en un año concreto (ej. 2015) resulta de dividir el número de citas que reciben durante ese año (2015) los artículos publicados en dicha revista durante los tres años previos (ej. 2012-2014), entre el número de artículos que publicó dicha revista durante ese mismo periodo de tiempo (ej. 2012-2014).

Introducing CiteScore metrics for serials

We are proud to introduce CiteScore metrics from Scopus – comprehensive, current and free metrics for serial titles in Scopus. Search or browse below to find a source and see the new metrics. Use the annual metrics for reporting, and the 2016 metrics for up-to-date tracking.
Be sure to use qualitative as well as the below quantitative inputs when presenting your research impact, and always use more than one metric for the quantitative part.
